WASHINGTON:

MONDAY AFTERNOON, JULY 7, 22 To the Public.—From the 1st day of July, 1851, the postage on the Daily American Telegraph, Washington city, D. C., will be, per quarter in advance, as follows:—Fifty miles or under, 25 cents; over fifty and not over three hundred, 50 cents; over three hundred and not exceeding one thousand, 75 cents, &c. Any person wishing to be served for three months after the above date need only pay his quarter's postage, and send us a gold dollar and a silver quarter in a small letter—postage paid, of course; or five dollars for a year. The Telegraph is independent in politics, polite, moral, agreeable, and familiar, prompt in furnishing the news, and a terror to all evil doers.

Editors of weekly and other papers desirous to exhange with us can pay the difference in the prices of abscription by giving a few insertions to the above noise.

We hope the Secretary of the Interior will be able to give a satisfactory and triumphant reply to the queries of "Commentator" in the Telegraph of to-day. Our only concern, however, is to reveal the truth, suffer who may.

THE GARDINER CLAIM .- We on Thursday last complained of one of the Washington correspondents of the New York Herald, who appeared to write by Treasury authority, for his statement that the Hon. Waddy Thompson was the only counsel in the Gardiner claim. The same correspondent, in a despatch which appeared in the next number of the Herald, told the whole story, and named all the counsel.

THE NORFOLK NAVY YARD. - Several hundred pounds of copper have been found at Portsmouth in the stores of two or three persons, who say they procured it from negroes. It has been identified as the property of the Government stolen from the navy yard. The persons who had it in possession have been bound over for trial before the circuit court, when the whole truth will be elicited.

Negroes are perhaps the thieves; perhaps white men. We shall know in good time. But white or black, it does not affect the main branch of the subject. If forty men among nine hundred at work in the yard had proved thieves, the measures adopted with reference to the rest could not be justified and ought not to be submitted to. After the examination of the receivers of the stolen property at Portsmouth, the workmen of the yard, we are told, could with difficulty restrain themselves from using strong measures to compel them to state from whom they had received it.

Commodore Stringham bears the odium of giving the insulting and oppressive orders; but we learn it does not all belong to him. We shall see anon.

FEARFUL ACCIDENT .- At a little before noor to-day a terrible accident occurred at Browns' new hotel. A number of the bricklayers had gone to work this morning, and the

until a range of joists, resting on a trimmer, sunk under the weight. There were corresponding trimmers as supports for the joists all the way down, and they all gave way in succession, precipitating probably several thousand weight of bricks and several of the men clear to the ground.

We have endeavored to ascertain the precise extent of the injuries sustained, and learn as follows:

James Hanrahan, brought to Infirmary; scull fractured. Fatal.

Michael Hanrahan, brought to Infirmary spine injured and other hurts. Probably fatal. Thos. Cross, brought to Infirmary; severe contusions. Badly hurt, but not dangerously.

Archie Brown, colored, brought to Infirmary; head, breast, &c., badly injured; not rallied from concussion. Probably fatal.

Besides these, the following were taken probably to their homes. We are unable to learn precisely the nature of their wounds:

Michael Clancey, slightly hurt. S. Brooks, colored, reported to be hurt. John McLane, reported to be badly hurt. - Adams, colored, slightly. John Hall, colored, arm probably broken.

ANOTHER ACCIDENT .- The scaffolding of the new building at the corner of Louisiana avenue this morning. Mr. Stiff, bricklayer, who was upon it, fortunately succeeded in leaping upon the wall; but Mr. Amey, another bricklayer, and Dick Wallis, a colored laborer, went down into the area. Mr. Amey, we are glad to say, was not seriously hurt; but Dick, poor fellow, was not so fortunate. It is hoped he is not dangerously hurt, but the concussion was such as to render his case rather doubtful. He belongs to Mr. Jones, the contractor for the work. It fold were taken away between Saturday evening and this morning.

THE CITY COUNCILS are to meet this evening, and we understand that a resolution will be introduced to repeal that portion of a late enactment requiring the Police Magistrates to reside in the wards for which they are elected respectively.

This is as it should be. Of what advantage is a man's family in the ward, so that he keeps his office there, and is faithful and prompt in the discharge of his duty as a Police Magistrate? We believe we speak the sentiments of the people of the Third Ward when we say that they are willing that the present incumbent of that office in the Third Ward may be permitted to exercise the same privilege of other citizens, to wit, the right to reside in whatever portion of the city he may prefer. We again say, we hope this portion of the law may be repealed; and again we would say that the Third Ward magistrate may remove in the Third Ward, and then reside at least two miles from his office, when he now resides less than half a mile. Equal rights and equal privileges we are in favor of, whether it be for citizens or magis-

THE BLOOMER OUTDONE. - We are informed that there was a pretty Bloomer dress on a very pretty little girl of eight, at the President's gardens on Saturday evening; but a little boy of six had donned a good imitation of Chinese habiliments, and looked like a very little man-

Four Days Later from Europe.

The steamer Baltic arrived at New York at half-past five o'clock on Saturday afternoon, bringing ninety-four passengers. She left Liverpool at half-past four o'clock, p. m., on the cussion. 26th of June, and her best day's sailing was three hundred and forty miles.

The United States ship St. Lawrence arrived at Lisbon on the 15th of June.

The commissioners appointed for the purpose have reported decidedly against the project of the transatlantic steamers sailing from the west of the islands for America.

Recent rains have much benefitted the crops and a good yield is almost certain.

A very destructive fire had occurred at London, on the 24th, destroying property to the amount of £200,000.

Trade in Manchester is unusually brisk. The 4th of July was celebrated on board the Baltic in a becoming manner and with great

spirit. A destructive conflagration had occurred at Archangel, Russia, on the 10th, which consumed one hundred and fifty houses and two churches.

The movement in favor of the revision of the constitution of France is gathering increased force. Petitions in favor of it are flowing in from all parts of the Republic.

Ledru Rollin has been sentenced to pay a fine of 3,000 francs, and be imprisoned two years, for publishing two pamphlets considered party lines are to be obliterated, and that "the seditious.

The ministers of Spain will not prorogue the courts until the question of the national debt is settled. A fire occurred in Madrid on the 2d, which destroyed the church of San Parenzo and various public buildings. At Liverpool on the 26th of June, the cotton

market was exceedingly dull, and prices have declined fully ad., since the sailing of the Africa. Flour has advanced 6d. per bbl. Wheat also advanced 1 to 2d. per bushel. Indian corn,

turing districts improving.

We hope the youths of our city have read with attention the story, the third and last portion of which we to-day publish.

NEW PATENT .- Dr. Joseph Sherbourne Smith is about to patent what appears to us a very decided improvement in dental extracting forceps, together with a great improvement in all instruments used as either shears or forceps.

REV. SAMUEL KEPPLER. - The Winchester Republican remarks of this gentleman, who has recently been removed from a clerkship in the Treasury Department, that he was a good, efficient officer, and a gentleman, and that the department could not have parted with a better rers, to avoid loss of time, continued to clerk; and adds: "We trust that Mr. Corwin vey bricks to the floor of the fourth story, will provide for Mr. Keppler's reinstatement. Petitions should be signed by his friends to this effect."

THE MARSHALL ROBBERY .- Brest has gone to the Penitentiary for the robbery; but this morning Mrs. Bogus and her son William Bogus were found possessed of a portion of the ost money, and held to bail by Justice Donn. Officers Martin and Waters made the arrest and brought the money to light.

HAMBLIN, the broken-down actor and roue, at New York, became embarrassed, and they gave him a benefit the other day which realized fifteen thousand dollars! Could any one in the useful pursuits of life have been thus helped? How freely men spend money for their pleasures, and how niggard when dealing with the producers of things necessary! But Hamblin is welcome, poor devil! if he will only make a good use of the money.

THE BLOOMER DRESS that lately made its appearance in this city was worn by a young lady ten years old only-Miss C \* \* \* \* \*, of George-

Not DEAD .- There was an agitation in Philadelphia about the death of W. H. Graham, a younger brother of the editor; but he teleand Seventh street, one story high, gave way graphs from Detroit, and says he is not dead. The authority is good.

> DANIEL RAGAN, committed to jail at Springfield, for drunkenness, starved himself to death in prison, out of sheer spite. He was not insane, but merely wicked and revengeful. His wife brought him milk, which he threw in her face, and then died in a pet, poor wretch!

DEATH OF A U. S. CONSUL .- Alexander Mc-Kinsey Ross, Esq., U. S. Consul at St. Catheis believed some of the supports of the scaf- rine's, Brazil, died on the 31st of May, on board the ship Banshee, on her passage from Rio de Janeiro to New York.

SAILING OF THE ARCTIC .- The United States mail steamship Artic, Captain Luce, was to sail from New York for Liverpool on Saturday last, its candidate for the Presidency, and Crittenden with one hundred and forty passengers and \$780,000 in specie. Among the passengers we life of Scott, by Edward D. Mansfield, with a notice the names of Gov. Philip Allen, of Rhode great big portrait of the here in regimentals. Island : Daniel Huntington and H. P. Gray, the artists, of New York; J. E. Dumont, Austrian Consul at Mobile; Dr. G. H. Griscom, also of New York; M. B. Brady, the daguerreotypist, and lady; and Charles S. Boker of Philadelphia.

A FINE BAND .- In our notice of the procession on the 4th instant, we omitted to mention that the fine Band of the Washington Light Infantry paraded with a number of new and beautiful instruments. As regards their performance, it is hardly necessary for us to attempt any praise, for their notes were heard. We rejoice that we possess a volunteer band that is likely to prove an ornament to our great Metropolis.

Trout are said to be very plenty in the neighborhood of Bombay Hook. The Wilmington Blue Hen's Chicken notes the fact that Mr. Jacob Hill, a fisherman of that city, recently, at one haul, took three thousand pounds of trout. At another haul he took something over that. Several of the trout were of tremendous size : some of them were nine and a half to eleven pounds weight, the rest averaging from three to five pounds.

MR. SECRETARY STUART.-I am glad to per ceive, Mr. Editor, that you have opened your columns to free, fair and courteous political dis-

Your correspondent, "ARISTIDES," finds fault with Mr. Secretary Stuart for knowing no distinction between Whigs and Democrats, in his official capacity.

Is it not hard for him to select Mr. Stuart for censure, when all the other members of the Cabinet are obnoxious to the same charge? Let the other and older members of the Cabinet show by their acts that they have not forgotten the party that made them what they are, and that they are not so verdant as to suppose they can conciliate "modern Democracy," or tame a wolf, and then see if Mr. Secretary Stuart will not begin to recollect who made him, politically.

For my own part, as a true Whig, who knows not how to forget the noble old party that has been stoutly battling "Democracy" for twentyodd years, nor how to forget the noble old head and front, the life and soul, the great masterspirit of that party-HENRY CLAY, God bless him !- I think all the members of the present Administration are alike censurable for the manner in which they have shamefully neglected the welfare of the Whig party, and spread themselves to conciliate "modern Democracy. They are all asleep and dreaming that the great powers that be" are to hold over, and be continued where they are "by spontaneous combustion." Mr. John Tyler had a dream of the same sort. There are more John Tylers abroad now than formerly. But of this, more on a future occasion

My object to-day is to put some home-truths, in a civil way, to Mr. Secretary Stuart, and to ask him a few questions which he may find some difficulty in answering.

The Whig party has been saddled, as it ought not to have been, by its leaders, who have been exalted to power, with the odium which attaches to the allowance of the Galphin claim, the De la Francia claim, the Barron pension claim, the Ewings' claim, the Chickasaw claim, under the the Herald is founded, no doubt, more upon and the Mears claim, under the Fillmore Administration. It is not enough for the members of the Administration to prove ungrateful to the "modern Democracy," but they must needs go with the Herald. to work to heap indelible odium upon that party by allowing and paying such claims as those above alluded to.

But the allowance of those claims is not all that Whigs may, with justice and reason, complain of.

I put it to Mr. Secretary Stuart, most respectfully, to answer the following questions, if he can, relative to the taking of the census :

1. Were there more than seventeen clerks employed to take the census of 1840?

2. Are there not now upwards of seventyfive clerks employed to take the census of 1850; 3. Did not Mr. Kennedy, the Superintendent of the census for 1850, cause the Stiger house, on Eighth street, to be purchased, in the name of Thomas M. Howe, Member of Congress elect any change. We hear of no sales of moment.-Amer. in the Pittsburg District, Pennsylvania?

4. Did not Mr. Howe utterly refuse to hav any thing to do with the purchase?

5. Was not another man's name then use by Mr. Kennedy for the purchase of said house? 6. Is the rent of said house worth more than \$600 per annum, to anybody or for any pur-

7. Has not the Government been paying, and is it not paying, the enormous rent of \$1,750 per annum for the said Stiger house, owned by Mr. Superintendent Kennedy?

8. Does not Mr. Kennedy rent to the Gov ernment four rooms in his own dwelling-house on H street, for \$250 per annum, and also several rooms in a building adjoining the Interior Department, for about the same amount per

9. Does not the Secretary of the Interior know, and has not Mr. Comptroller Whittlesey decided, that there are unoccupied room enough in the Interior Department building to accommodate all the clerks engaged on the census?

10. Has not Mr. Superintendent Kennedy been commissioned by Mr. Stuart to make the tour of Europe, at the expense of the Government, while his salary of \$2,500 per annum as Superintendent is to run on here at home, and to be paid to him on his return?

11. How much money was advanced to Mr. Kennedy to enable him to make his European

12. Out of what fund, and by what authority, was money advanced to Mr. Kennedy for such a purpose?

The foregoing twelve questions will most likely be looked into by a committee of Congress early next winter. COMMENTATOR.

THE AMERICAN PATRIOT, a weekly paper, at \$1 a year, is published in New York. Scott is its candidate for the Presidency, and Crittenden for Vice President. It is issuing in chapters a life of Scott, by Edward D. Mansfield, with a great big portrait of the hero in regimentals.

QUITE A GOOD JOKE!-It is stated in some of the newspapers, that a gentleman living in Virginia wrote to his brother in Ohio that he desired to emancipate one hundred slaves and send them to Ohio. His brother wrote back that he could not do that-that the State would not receive them, and would make considerable ado at such a proposition, but he could suggest a way in which he could accomplish his intention. He advised him to take the slaves to Wheeling, ship them for Cincinnati, and talk of taking them to New Orleans, and the abolitionists would steal them all away from him, and save him much trouble!

Messrs. Editors : Permit us to use the columns of the American Telegraph, to call the attention of the Board of Health to an existing nuisance immediately back of the premises occupied by the Orphan Asylum on H between Ninth and Tenth streets. They will there find the side of the hill in a most filthy condition; and exposure to the late hot sun has rendered it so noisome, that those who live on H street opposite may not open their windows to catch the welcome southern breeze, without breathing an atmosphere burdened with the most disgusting odors. THE SUFFERERS.

The foregoing comes to us from several very worthy and respectable citizens.

To the Editors of the American Telegraph.

CALIFORNIA.—The steamer Empire City ar rived at New York yesterday, bringing Chagres dates to the 26th June. She has no later advices from California than those brought by the Prometheus. She brings three hundred and seventy-five passengers, and one million and a half gold on freight and in the hands of passengers. The first locomotive on the Panama railroad

started from Navy Bay on the 24th. The work is progressing rapidly. The Empire City left the steamer Falcon at Chagres, waiting the arrival of the steamer Oregon. ON DITS .- Some of the papers state that ex-Senator Westcott, of Florida, is an editor of the New York Herald; also that C. E. Lester, esq., is an editor of the same. We suppose thes will be followed with reports that Archbishop Hughes is an editor of the Herald; that Wn H. Seward is in the same category; that Daniel Webster has a finger in the pie, &c., &c. We suspect that Sir Henry Bulwer has a very decided connexion with the Herald—to say nothing of Queen Isabella of Spain, the Emperor of Russia, the Captain General of Cuba, &c. one, however, will suspect Prince Albert, because he has business enough to do in keeping up the royal line of England—nor the Emperor of Austria, for he is too great a blockhead. Here the socialists say that Satan has been engaged on the Herald, hence calling it the Satanic press. If so, Satan has made a capital debut for the first time in his history .- N. Y. Herald.

The assertion of the papers respecting Mr. ex-Senator Westcott's editorial connexion with Taylor Administration; and the Gardiner claim the style of many of the editorials of the Herald than from any thing the talented and eccentric ex-Senator has said or proclaimed in the matter. Precisely the reverse of this will account for great Whig party that made them what they what the papers have asserted with regard to are, by going after and attempting to conciliate Mr. C. Edwards Lester's editorial connexion

Gas.—The high price charged for gas in this city deters many housekeepers from using it. In the northern cities gas is supplied at \$2 per thousand feet, while we are paying \$6.40 per thousand feet, while we are paying \$6.40 per thousand feet; and although it must be admitted that the gas we use is superior to that con-sumed in New York and Baltimore, yet it is demonstrable that our gas is made (or can be made) at \$1 to \$1.50 per thousand. We are all willing to allow the gas company a living profit upon their work, but the advance upon the cost is too great; and it is only necessary for the gas consumers here to protest against it, as they do everywhere else, and the company must reduce the price; and if this be not done speedily, I say

A New and Beautiful Style of Painting!

The undersigned have the pleasure of announcing to their customers, and the Public generally, that they are now successfully using that new, beautiful and durable article, but lately introduced into this city—the Zhile Paint from the Susaw Mines, N. J., which far surplanes, in beauty of finish and durability, the best of white leads. All disagreeable and poisonous effects, common to other Paints, are by this avoided. We would respectfully refer those who wish to be better informed of its merits before having their houses painted, to—
